Experience

Razorpay

Solutions Engineer

Bangalore

Apr 2026 – Present

- Developed the **Payments Flow Playground** supporting multiple Payment Gateway products, accelerating merchant integration testing and troubleshooting.
- Troubleshoot and maintained Java and Node.js production services, resolving critical payment workflow issues for enterprise merchants.
- Built internal tools and collaborated with Product and Engineering teams to improve debugging efficiency and reduce issue resolution time using **Java, Python, JavaScript, TypeScript, React.js, Next.js, Android, REST APIs, and SQL**.

Razorpay

Associate Solutions Engineer

Bangalore

Jun 2024 – Apr 2026

- Debugged production issues for enterprise merchants integrating Razorpay Payment Gateway APIs by analyzing backend services, API failures, payment issues, and production incidents using logs and API traces.
- Collaborated with Engineering teams and enterprise merchants during onboarding, API integration, and production go-live, leveraging Java, JavaScript, TypeScript, Node.js, and REST APIs to deliver reliable payment solutions.

Appfoster Innovations Pvt. Ltd.

Associate Software Engineer Intern

Mar 2024 – Jun 2024

- Built scalable full-stack web applications using React.js, Next.js, Node.js, MongoDB and MySQL.
- Developed reusable frontend components, integrated REST APIs and delivered production-ready features in collaboration with senior developers.

Technical Skills

Languages	Java, JavaScript, TypeScript, Python, C++
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL
Developer Tools	Git, GitHub, Docker, Linux, Postman

Projects

StudyNotion – Full Stack Ed-Tech Platform

Live | GitHub

- Developed a full-stack ed-tech platform enabling instructors to create and manage courses while allowing students to securely purchase and access learning content.
- Implemented JWT authentication, role-based access control, payment integration, responsive dashboards, and course management using React.js, Node.js, Express.js, MongoDB, REST APIs, and Tailwind CSS.

FeelHome – Real Estate Marketplace

Live | GitHub

- Built a full-stack real estate marketplace enabling users to buy, sell, and rent properties with secure authentication, image uploads, and advanced search filters.
- Developed using React.js, Node.js, Express.js, MongoDB, Firebase, and REST APIs with a responsive user interface.

Education

United College of Engineering & Management

Bachelor of Technology (Computer Science Engineering)

2019 – 2023

CGPA: 8.75
